

BAYLEY & SONS, Inc.
DESIGNERS and MAKERS OF
LIGHTING FIXTURES
SINCE 1912

Foreword

DURING the past few years, the manufacture of Lighting Fixtures has attained to the highest plane of advancement in beauty, quality and diversity of style range.

Today, we have Period creations in various metals for every conceivable use, in modes that harmonize with modern architecture.

We have thought-out and unified blending of design which affords a selection of desirable and practical fixtures for every room or entrance of an abode, modest or pretentious.

In coming before you with this catalog, we have attempted to show but a few of the many beautiful and sturdy numbers in our extensive lines.

We are justly proud of the Equalite product, and we are ever jealous of the enviable reputation which these handsome fixtures have achieved.

Our style creators are fully alert to present-day requirements, and every Equalite is as authentic as it is elegant.

The artisans of our factory are second to none, and to the last detail, materials used are of the best.

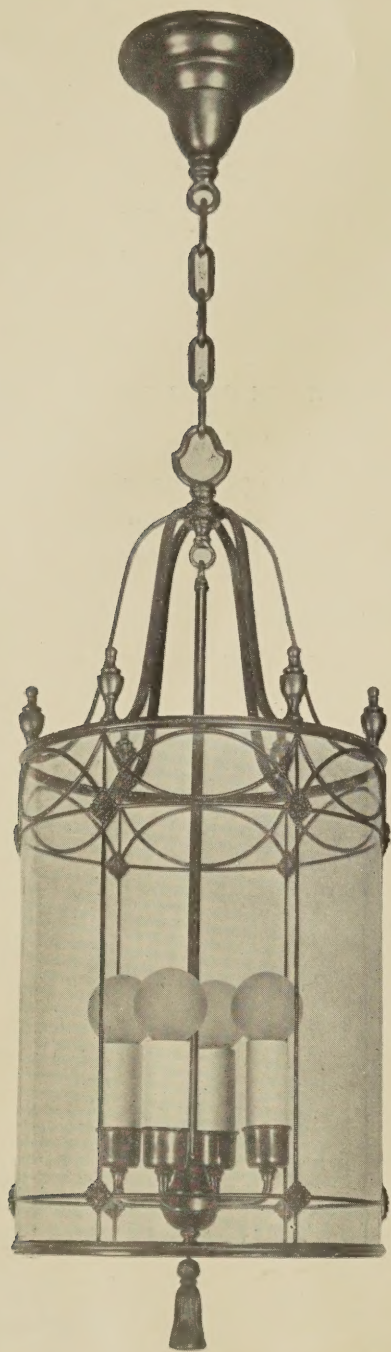

You may order Equalite Fixtures with every assurance of perfect satisfaction, and we invite inquiries on any number not shown herein.
